Cooperative Extension

<b>CHAPTER 1 – INTRODUCTION</b> .....	<b>1</b>
<b>CHAPTER 2 – SITE SELECTION</b> .....	<b>2</b>
<b>CHAPTER 3 – HOP YARD NUTRIENT MANAGEMENT</b> .....	<b>3</b>
3.1 Introduction .....	3
3.2 Soils and Fertility .....	3
3.3 Soil Testing .....	3
3.4 Soil pH .....	3
3.5 Monitoring Nitrogen with Leaf Petiole Testing .....	5
3.6 Fertilizers .....	5
3.6.1 Nitrogen, Phosphorus and Potassium.....	5
3.6.2 Secondary Nutrients and Micronutrients.....	6
3.6.3 Fertilizer Placement .....	7
3.6.4 Fertilizer/Transplant Solution .....	7
3.6.5 Fertigation .....	7
3.6.6 Foliar Feeding .....	8
3.7 Preparing an Organic Nitrogen Budget .....	8
3.8 Manure .....	9
3.9 Manure and Produce Safety .....	9
3.10 Food Safety Risk Assessment for Use of Sheep in Hops .....	10
3.10.1 Management of Sheep in the Hopyard .....	10
3.10.2 Food Safety Risk Evaluation.....	10
3.11 Good Agricultural Practices (GAPs).....	10
3.11.1 Worker Behavior in the Hopyard .....	10
3.11.2 Preventing Contamination of Adjacent Crop Land .....	11
<b>CHAPTER 4 – SOIL HEALTH</b> .....	<b>12</b>
4.1 Introduction .....	12
4.2 Soil Organic Matter.....	12
<b>CHAPTER 5 – COVER CROPS</b> .....	<b>13</b>
5.1 General .....	13
5.2 Goals and Timing for Cover Crops .....	13
5.3 Nonlegumes .....	14
5.3.1 Oats .....	15
5.3.2 Wheat .....	15
5.3.3 Rye .....	15
5.3.4 Barley.....	15
5.3.5 Sudangrass and Sorghum x Sudangrass .....	15
5.3.6 Buckwheat.....	15
5.3.7 Brassicas .....	15
5.4 Legumes .....	15
5.4.1 Hairy Vetch.....	15
5.4.2 Red Clover and White Clover .....	15
5.4.3 Annual Sweetclover (Hubam).....	16
5.4.4 Biennial Sweetclover (Yellow Blossom and White).....	16
5.5 Groundcover Management .....	16
5.5.1 Clean Cultivation/Fall Cover .....	16
5.5.2 Permanent Sod .....	16
<b>CHAPTER 6 – VARIETY SELECTION</b> .....	<b>18</b>
6.1 Hop Varieties .....	18
<b>CHAPTER 7 – PESTICIDE INFORMATION</b> .....	<b>19</b>
7.1 Pesticide Classification and Certification.....	19
7.2 Use Pesticides Safely .....	19
7.2.1 Plan Ahead .....	19
7.2.2 Move Pesticides Safely .....	19

**CHAPTER 7 – PESTICIDE INFORMATION** *(continued)*

7.2 Use Pesticides Safely *(continued)*

    7.2.3 Personal Protective Equipment .....19

    7.2.4 Avoid Drift, Runoff, and Spills.....19

    7.2.5 Avoid Equipment Accidents .....20

    7.2.6 Pesticide Storage.....20

7.3 Pollinator Protection .....20

7.4 New York State Pesticide Control Legislation .....20

    7.4.1 Restricted-use Pesticides.....20

    7.4.2 Additional Use Restrictions .....21

7.5 Verifying Pesticide Registration and Restricted-Use Status .....21

7.6 Check the Label for Site and Pest .....21

7.7 Pesticide Recordkeeping/Reporting .....21

    7.7.1 New York State Requirements.....21

    7.7.2 Federal Private Applicator Recordkeeping Requirements .....22

7.8 EPA Worker Protection Standard (WPS) for Agricultural Pesticides.....22

7.9 Reduced-risk Pesticides, Minimum-risk Pesticides, and Biopesticides .....22

    7.9.1 Reduced-risk Pesticides .....22

    7.9.2 Minimum-risk Pesticides .....23

    7.9.3 Biopesticides.....23

7.10 FIFRA 2(ee) Recommendations .....23

**CHAPTER 8 – SPRAYER TECHNOLOGY** .....24

8.1 Preparing the Airblast Sprayer for Work .....24

    8.1.1 Checking the Sprayer.....24

    8.1.2 Fitting the Sprayer to the Tractor.....24

    8.1.3 Checking the Operation of the Sprayer.....24

    8.1.4 Pre-season Maintenance .....24

    8.1.5 Nozzles on the Net.....25

8.2 Equipment for Weed Control in Hopyards .....26

    8.2.1 Boom Applicators for Herbicides .....26

    8.2.2 Conventional Flat Fan Nozzles .....26

    8.2.3 Pre-orifice Flat Fan Nozzles .....26

    8.2.4 Turbo-Teejet .....27

    8.2.5 Air Induction Nozzles.....27

    8.2.6 Sensor-controlled Applicators .....27

    8.2.7 Controlled Droplet Applicators (CDA).....27

    8.2.8 Flame Applicators.....27

    8.2.9 Where to Look/buy Equipment and Nozzles .....27

8.3 Selecting the Correct Nozzle to Improve Deposition.....28

8.4 Sprayer Calibration .....28

    8.4.1 Travel Speed Calibration .....28

    8.4.2 Airblast Sprayer Calibration .....29

    8.4.3 Calibrating an AgTec Sprayer .....29

    8.4.4 Boom Sprayer Calibration .....30

8.5 Selecting Nozzles from the Nozzle Catalogue – Airblast Sprayers .....30

8.6 Selecting Nozzles from the Nozzle Catalogue –Boom Sprayers .....32

    8.6.1 Selecting a Nozzle to Give Desired Spray Quality .....33

8.7 Reducing Drift from Airblast Sprayers in Hopyards.....33

8.8 Management Strategies to Reduce Drift .....34

8.9 Solutions for Safer Spraying .....35

    8.9.1 Why use Engineering Controls? .....35

    8.9.2 Loading the Sprayer.....35

    8.9.3 Reducing Contamination at the Boom.....35

    8.9.4 Drift and Contaminated Clothing in Cabs.....35

    8.9.5 Controlling Drift .....36

    8.9.6 Cleaning the Sprayer.....36

**CHAPTER 8 – SPRAYER TECHNOLOGY** *(continued)*

8.10 Spraying Small Hopyards.....	39
8.10.1 Selecting a Small Sprayer for the Small Hopyard.....	39
8.10.2 Prior to Spraying – Calibrating Sprayers .....	40
8.10.3 Calculating the Amount of Pesticide to Use .....	40
8.10.4 Measuring Small Amounts of Pesticide .....	41
8.11 Going Spraying! Mixing Procedures.....	42
8.12 Decontaminating and Storing Crop Sprayers .....	45
8.12.1 Sprayer Decontamination and Maintenance.....	45
8.12.2 Cleaning when Similar Products are to be Used .....	45
8.12.3 Cleaning when Product Type is Changed .....	45
8.12.4 Disposal of Pesticide Waste .....	46
8.12.5 Storage of Sprayers .....	46
8.13 Distance Learning .....	46
<b>CHAPTER 9 – HOPYARD IPM.....</b>	<b>47</b>
9.1 Principles of Insect and Disease Management .....	47
9.2 Developing a Hopyard IPM Strategy .....	48
9.3 IPM Scouting Protocols for Hops – Getting Started .....	48
9.4 Pesticides Labeled for use in Hop Production in NY .....	49
9.5 Pesticide Regulatory Considerations.....	49
9.6 Optimizing Pesticide Effectiveness.....	49
9.7 Disease Management.....	49
9.7.1 Diseases of Primary Concern .....	50
9.7.2 Virus and Viroid Diseases.....	55
9.8 Insect and Mite Management .....	56
9.8.1 Insects and Mites of Primary Concern .....	56
9.8.2 Minor and Sporadic Insect Pests .....	60
9.9 Weed Management.....	62
9.9.1 In-row Mulches .....	64
9.9.2 Plastic Mulches .....	65
9.9.3 Application and Disposal of Plastic Mulches.....	65
9.10 Pesticide Effects on Beneficial Arthropods.....	66
9.11 Wildlife Management.....	67
9.11.1 Voles .....	67
9.11.2 Deer.....	67
<b>CHAPTER 10 – PESTICIDE INDEX .....</b>	<b>69</b>
<b>CHAPTER 11 – REFERENCES AND RESOURCES.....</b>	<b>74</b>
